

Scotland welcomes migrant workers...

➤ Aleksandras is from Lithuania and works in a recycling plant in Stirlingshire. He is paid the minimum wage, overtime and is safe in work. When he arrived in Scotland his first job in catering paid £3.00 an hour. An advice worker told him this was illegal and helped him to find a better situation.

Workers in Scotland have the right:

- To a minimum wage and employment rights
- To be healthy and safe in work
- To not be exploited
